UCSF Newsbreak

Emissions Study Shows Laurel Heights Research Labs are Safe; Campus Gears Up to Help Secure UCSF's Future

An independent analysis of potential toxic and radioactive emissions from two School of Pharmacy laboratories now in operation at UCSF-Laurel Heights has concluded that research activities pose no health risk to workers at the site or to the community.

The data in the study indicated that, even in a worst-case scenario, exposure to the community from Laurel Heights laboratory emissions would be from *600 times to 500 million times less than levels known to be safe.*

Seven of the 41 tested substances were suspected carcinogens, so cancer risks also were estimated. The study concluded that there is a four times greater risk of getting cancer from a single chest X-ray than from a lifetime of exposure to the emissions at Laurel Heights.

To ensure objectivity, the campus commissioned Radian Corporation, a nationally recognized firm in conducting health risk assessments, to do the study.

Based on estimated emissions from the laboratories at Laurel Heights, Radian used state-of-the-art computer methodology approved by the Environmental Protection Agency to predict exposures to the community. The study then measured emissions actually coming out of the fume hoods, which verified the estimated emissions (radioactive substances are not currently being used).

"Chronic, long-term exposure to the emissions predicted as the result of our analysis of the laboratories' current operations would not result in a significant impact on human health," concluded William R. Oliver, program manager for research and engineering at Radian.

Radian also checked air samples at Laurel Heights to establish baseline data so the quality of the air can be monitored after the School of Pharmacy moves its programs. This will help assess the effect of laboratory operations on air quality in the area.

A system to monitor the air at Parnassus also is being set up.

Results of the Radian emission study are consistent with studies performed in 1984 and 1986 by the UCSF Environmental Health & Safety Department of soil and leaf samples which demonstrated no significant traces of harzardous or radioactive residue around the Parnassus campus.

The Radian study is further evidence that research laboratories UCSF proposes to move from Parnassus Heights to Laurel Heights pose no threat to the health of the community, either in the short term or over any given individual's lifetime, according to Assistant Chancellor Thomas Gwyn.

Meanwhile, the proposed move of the School of Pharmacy basic sciences to Laurel Heights still is before the courts. At the present time, the California Supreme Court, in an unusually swift action overturning a stop work order of the appellate court, is allowing us to continue the research now there on a status quo basis. The California Supreme Court action was taken in response to a petition by the Regents pointing out that there had been no demonstrated harm from the School of Pharmacy programs, but that "irreparable academic and scientific harm would be done to the University if we had to close down these programs."

The University now has filed a petition with the California Supreme Court to review the California Court of Appeal decision that the Laurel Heights EIR was inadequate.

The Regents' petition is based on the grounds that the Court of Appeal decision conflicts with decisions of other appellate courts in similar cases, and that the decision appears to go well beyond what environmental law requires. The California Supreme Court is expected to decide by the end of November whether it will hear the case.

As reported in the last issue of *Newsbreak*, Chancellor Krevans has held an informational meeting with members of the Academic Business Officers Group (ABOG) and the UCSF Council, and a special campus-wide meeting for all staff employees, faculty and students. Krevans told the groups that he soon would be appointing a "Staff Advisory Committee for the Future" to meet regularly to plan how the entire campus community can be of help.

The Chancellor will appoint the committee out of submitted names of interested employees. If you are interested, submit your name through ABOG, the UCSF Staff Council, or directly to the office of Vice Chancellor Thena Trygstad, Box 0402, or call x62401.

At the same time, the Chancellor has been meeting weekly with a new 24-member "Faculty Advisory Committee for the Future." UC President David Gardner paid a special visit to UCSF in July to meet with this group and to see first-hand the space problems on our campus.

Anne Dowie

Pharmaceutical chemist C.C. Wang with President David Gardner and Chancellor Krevans during Gardner's July visit to the campus.

Mikkel Aaland

Hundreds of faculty, students and staff crammed into Cole Hall on July 30 to attend an urgent meeting called by Chancellor Krevans to discuss the Laurel Heights situation.

New UCSF Oral Epidemiology Program

UCSF soon will establish, for the first time ever in this country, a new training program for oral epidemiology specialists.

Sponsored jointly by the Schools of Medicine and Dentistry, the program is made possible by a half-million-dollar grant from the National Institute of Dental Research. The program will be directed by Stephen B. Hulley, MD, MPH, professor of epidemiology and medicine. Codirector will be Samuel J. Wycoff, DMD, MPH, professor and chair, dental public health and hygiene.

The program is designed for dentists who would like additional training in the field of oral epidemiology, which focuses on the natural history of oral disease and testing of improved treatments, according to Wycoff. Current campus studies include oral cancer, smokeless tobacco, oral manifestations of AIDS and periodontal disease.

Fellows in the three-year training program will study at UC-Berkeley for the first year for a master's in public health, then continue at UCSF with clinical and research work under the supervision of our dental school faculty. The program provides stipends to trainees.

Dental clinicians who would like more information on the fellowship training program should contact Wycoff in the Department of Dental Public Health and Hygiene, UCSF School of Dentistry, 707 Parnassus, SF, CA 94143-0754, x65802.

Bainton Appointed Chair of Pathology

Mikkel Aaland

Dorothy Ford Bainton, MD, has been appointed the new chair of the Department of Pathology in the School of Medicine, making her the first woman ever to chair a department in the schools of Medicine, Pharmacy or Dentistry.

Both a researcher and clinician, Bainton is well known for her work showing how white blood cells develop and mature in the bone marrow to become the primary line of defense against infection. Much of what is described in textbooks today was fleshed out by Bainton and her UCSF colleagues.

Her research last year won her a Merit Award from the National Institutes of Health, which will support her research for the next 10 years. Earlier this year she was elected to the Association of American Physicians, and she will become president of the American Association of Pathologists in 1989. The UCSF Women's Faculty Association awarded her its Career Achievement Award in 1985.

Bainton also has been active on the editorial boards of scientific journals such as the *American Journal of Pathology*, and on administrative and academic committees at UCSF, including the Curriculum Committee and the Chancellor's Committee on the Status of Women.

Getting Ready for the "Big One"

In the next 20 years San Francisco will experience a quake of at least 7.5 on the Richter scale. There will be at least 11,000 dead and another 45,000 injured. The City will be isolated, there will be no power, our airport will be closed, there will be fires, landslides, and several hospitals will be damaged.

That's what the earthquake experts say.

In a recent campus program, sponsored by the Office of the Vice Chancellor—Personnel & Student Services, some 200 people sat in Cole Hall listening to Dan Nicholas of the City's Office of Emergency Services, describe the above scary scene.

So, what can we do? The message is "be prepared."

Nicholas detailed how San Francisco's emergency plan works, plus how individuals can help protect themselves. Most of the things we know already: During an earthquake get under a table or in a doorway; be aware of aftershocks; if you're outside try to get in an open area; if you're in your car, pull over until the shaking stops.

But, some information was surprising:

- Don't turn off the gas. Unless you're sure there is major structural damage to your building, and you smell gas, don't turn off the

(continued on page 2)

Chamber of Commerce Adopts AIDS in the Workplace Policy

Employees with AIDS should be offered the right to continue working as long as they are able to perform satisfactorily, and their continual employment does not present a health or safety threat to themselves or others, according to "AIDS in the Workplace: Suggested Guidelines for the Business Community."

The guidelines, written for the San Francisco Chamber of Commerce by board member UCSF Chancellor Krevans, suggest six points for the business community to follow in dealing with the AIDS epidemic. The Chamber is distributing the policy to business leaders across the country in hopes that all businesses will adopt it.

The guidelines suggest that employers and coworkers treat all employee medical information with strict confidence; that employees treat critically ill colleagues with compassion and sensitivity; that the AIDS antibody test and/or AIDS virus test not be used as a prerequisite for employment or continued employment; and that employers implement educational programs to help employees understand the disease.

Meanwhile, the UCSF AIDS Health Project, an AIDS prevention and education program concerned with the psychosocial aspects of the disease, has started a new Volunteer Therapist Program. Coordinated by Laurie Yamamoto, the program is designed to recruit therapists in private practice who are interested in volunteering at least one hour a week to see people with AIDS or ARC in San Francisco who are unable to pay for mental health services.

For further information call x66430 weekdays, except Tuesday. The AIDS Health Project now has new quarters at CED, 1855 Folsom, Rm. 506.

CED Safety Gets Priority Status

In response to concerns expressed by employees at CED, a number of steps are being taken to improve the security in the building and surrounding areas. As outlined by campus police Lieutenant Mike Brant, the following activities are underway:

- A security specialist currently is analyzing the building, parking lots and neighborhood, and will be submitting a proposal in September outlining a program for improved security.
- Lieutenant Brant has been holding informal noontime brown bag sessions to discuss concerns with employees. Several of these sessions already have taken place. Be sure to watch for memos from the building manager advertising forthcoming sessions.
- Personal safety classes are being offered on location at CED, including a self defense class coming up in September. Again, watch for flyers advertising these classes. For more information, call Personal Safety Program coordinator Christine Yee, x61414.
- The Vice Chancellor's Office for Personnel and Student Services is developing a position of ombudsperson for CED matters, which will include security matters.
- The campus Personal Safety Committee, chaired by Ruby Freeman, has made CED safety one of their priority issues.

Proctor Foundation Celebrates Its 40th with Symposium Sept. 14

Our very own Proctor Foundation, whose faculty have worked for decades in underdeveloped areas of Egypt, India and the Third World studying and treating infectious and inflammatory eye diseases that blind millions, celebrates its 40th anniversary with a symposium on Monday, September 14, in Toland Hall.

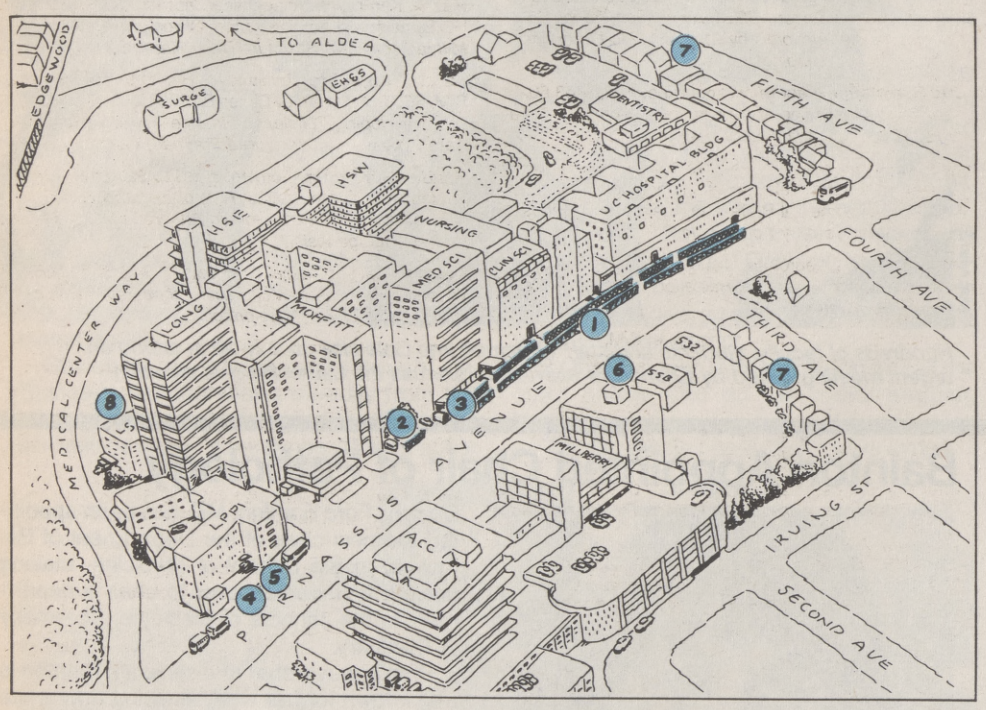
A highlight of the day-long symposium will be a talk by National Eye Institute director Carl Kupfer, MD, on "Vision Research Horizons to the Year 2000."

Ten fellows who trained at the Foundation also will present talks on topics such as eye inflammations caused by preservatives in contact lens cleaning solutions, the use of oral acyclovir to treat herpes eye infections, and eye infections caused by cytomegalovirus, a herpes virus that commonly causes opportunistic infections in AIDS patients.

The Foundation, one of only a few World Health Organization Collaborating Centers for the Prevention of Blindness, has made major contributions to the understanding and treatment of chronic eye infections ranging from chlamydia, herpes and leprosy infections to the parasitic disease toxoplasmosis, and various bacterial and fungal infections like uveitis.

For further information on the symposium call x61441.

Full Steam Ahead!



1) South side of Parnassus—Repair Deteriorated Steamline—completed Dec. '87: Sidewalk torn up from west side of Moffitt circle to east side of UC Hospital loading dock near 4th Ave. No parking, stopping, drop off
2) Moffitt circle now fully open, but trucks for steamline have access; Moffitt front doors closed Aug. 29 for one week
3) Med Sci MUNI bus stop eliminated until fall '87
4) MUNI bus stop remains in front of LPPI
5) Marin buses to unload passengers in front of LPPI instead of Medical Sciences. Evening loading remains in front of Millberry Union until fall
6) Student Services offices relocated from SSB to 2nd floor, west wing MU
7) More student housing in 3rd & 5th Ave. residences, as academic, administrative programs move out
8) Vacate Laundry Storehouse:
- Facilities Management, including Physical Plant, Capital Projects Management, have moved to rented space at 20th & Harrison
- Satellite Physical Plant has been set up in ACC "C" level
- Pharm Tech has moved to UCSF-Laurel Heights
- Laundry moves to Oyster Point with operation Jan. '88

If you were among the few campus employees not on vacation the first week of August, you may have noticed a distinct change in the south face of Parnassus. We now have cyclone fences extending from Moffitt circle down to the UC Hospital building, and construction has begun on our new steamline. So, for the next four months try to avoid that side of the street because there will be plenty of construction going on.

You still will have access into the buildings, but try to either walk inside the buildings and exit on the first floor where School of Pharmacy Student Services is, or better yet—just walk on the north side of the street.

The MUNI bus stop in front of Medical Sciences has been eliminated until fall. So please use the one near Fourth Avenue or the one in front of LPPI.

Marin bus people should remember that the morning drop-off point has moved from the front of Medical Sciences to the front of LPPI. The evening pick-up point remains in front of Millberry Union.

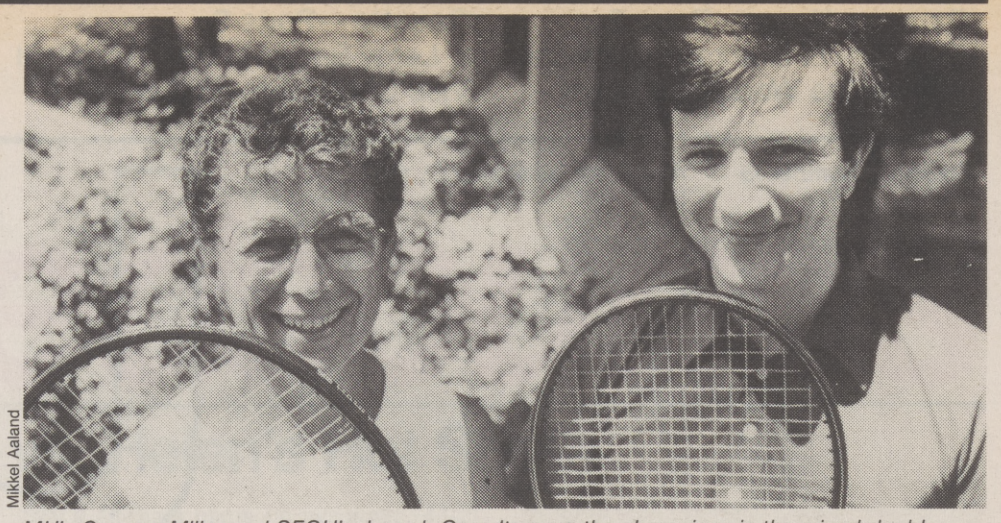
In the next few months, in preparation for the library, offices in the Student Services building will be relocated from 520 Parnassus to the second floor, west wing of Millberry. That's what the wood barricades over the second and third floor windows are all about. There will be additional student housing appearing along 3rd and 5th Avenues, as we continue to convert offices back to residential use.

Meanwhile, the front doors to Moffitt Hospital will be closed starting Saturday, August 29, for a week to lay new flooring in Moffitt lobby. Employees and visitors are asked to please use the emergency room, physical therapy or Medical Sciences entrances.

Plus, we are starting to revamp our Medical Sciences elevators to be completed around October '88. New emergency telephones now are being installed in *every* elevator on campus. You no longer will have to dial several numbers to reach the Campus Police. You'll just have to lift the phone! Also, all "push to stop" buttons will be changed by the end of the year to "pull to stop." It seems that people accidentally have been leaning against these buttons, causing the elevators to stop.

Also, the stairs between Medical Sciences and Clinical Sciences, on the basement level and floors 5 to 7, are being replaced. So, until October 9, take floors 1 to 4 to cross over into these buildings.

Keep watching this space for a map highlighting specific areas of contruction. A future issue will contain a special two-page poster of a map detailing more major campus construction and what you need to be aware of.



Mikkel Aaland

MU's Carmen Miller and SFGH's Joseph Geradts were the champions in the mixed doubles tennis tournament co-sponsored by EMPACT and Millberry Union PRO the weekend of July 26. Their prize: $60 gift certificates for new tennis shoes. "I didn't start playing tennis until I was 45," says Carmen. "It goes to show, it's never too late."

What's Up on the EMPACT Agenda?

- **EMPACT kick-off celebrations**, featuring "The Flips" off-the-wall acapella. Three locations: September 15 at Oyster Point, September 16 at CED, September 17 in Cole Hall. More details next issue!
- **Discount movie theater tickets**—$3.25; regular $5-$6, available at MU Central Desk September 1. Call x62571.
- **UCB Bears Football** discount tickets, available at MU Central Desk now. Call x62571.
- **Novato Renaissance Faire** discount tickets, available at MU Central Desk. Call x62571.
- **White water rafting** on the south fork of the American River—Saturday, September 12. Call x61469.
- **Golf tournament** sponsored by UCSF Golf Club—Friday, September 18. Call Freeman Bradley or Don Baker, x61593.
- **Sonoma Wine Tour**—Saturday, September 19. Call x61469.
- **Transamerica Open Tennis** discount tickets—Wednesday, September 30. Call x62571.

Time to Sharpen Those Management Skills

You work in a very busy office and your three employees are sitting at their desks. One is reading *Glamour*, the other is calling his Mom in New Jersey, and the last is polishing her phone for the fourth time this week. Maybe you need to be a more effective manager?

If you are a full supervisor, entry level manager or an AA II, and would like to develop your management performance skills, why not sign up for one of the Management Skills Assessment Programs.

These are not training programs, but instead development programs which focus on 11 performance skills that have been identified as being of particular value to UC managers.

The next two sessions will be held November 2-6 and March 7-11 at Vallombrosa Center, Menlo Park. The $500 fee covers tuition, room and board. Application deadline for both the fall and spring Management Programs is Thursday, September 17. For further information call x64032.

The Big One *(continued)*

gas. There will be more explosions from people attempting to get the gas back on later! It's possible you might also smell gas coming from your neighbor's home. So, you might want to learn how to turn off that line.

- People usually don't panic in an earthquake. In all the earthquakes we have had around the world, what generally happens is that people help each other the best they can. There is a great sense of caring, not panic.
- Don't worry about being without food as much as being without water. Most people have enough food in their cupboards to last several days. But not enough water. Best way to save water: Take your empty bleach bottles and add water to the residue in the container (roughly, five gallons per person). Store these in a secure area of the house (not in the garage—usually not structurally safe). Date your bottles and refill (including more bleach) about every two years.
- Most people on campus do not know that there is an Emergency Plan Book which each department should have.
- Our Environmental Health & Safety Department will help make your office safer, for example, suggesting that lips be put on shelves to prevent objects from falling. Just call x62759 and someone will come over and assess the safety of your office.
- We have a First Responder Course offered through our CPR Center. The Chancellor urges all departments to participate in the program which covers breathing, bleeding, poisoning, burn and choking emergencies.

For free earthquake pamphlets call x65186. More extensive information can be obtained from the American Red Cross, 776-1500.

Sinclair

Phoenix E. Sinclair, director, UCSF Buchanan Community Dental Clinic & academic administrator, School of Dentistry: Appointed by Mayor Dianne Feinstein to the San Francisco-Adidjan, Ivory Coast Sister City Committee, to promote trade, cultural and educational exchanges, and to establish people-to-people programs.

Roger L. Crumley, clinical professor, otolaryngology: Appointed M.S. McLoud Visiting Professor by the South Australia Postgraduate Medical Education Association to teach for three weeks in Adelaide. Crumley will be leaving UCSF this fall to become chair, otolaryngology/head & neck surgery, UC-Irvine.

Jeffrey W. Miller, managing editor, *UCSF Magazine*, News & Public Information Services: Winner of the annual Award of Excellence of the Association of American Medical Colleges/Group on Public Affairs in the category of Medical Science Writing for his article *The Gene Hunters* in the April 1986 issue of the *UCSF Magazine*. Miller and **Michela Reichman**, Assistant Chancellor for Communications, also won the annual award in the category of External Single or Special Issue Publication for the 1986 *UCSF Annual Report*.

Mikkel Aaland

Kornblatt

Susan B. Kornblatt, program coordinator, Academic Geriatric Resource Program: Elected to board of governors of the SF Chapter, American Heart Association; board of directors, Family Survival Project, which serves brain injured adults and their children; and treasurer, SF Coalition of Agencies Serving the Elderly.

Bruce G. Flynn, acting coordinator, Employee Rehabilitation Service: Named president-elect of the National Rehabilitation Counseling Association, California Chapter.

Melvin M. Grumbach, Edward B. Shaw Professor of Pediatrics: Awarded the Centennial Medal for Distinguished Achievement at the 100th Anniversary Convocation of Babies Hospital, Columbia-Presbyterian Medical Center, NY. He also was appointed to the Dean's Board of Visitors, Mount Sinai School of Medicine.

Russell K. Laros, professor & vice chair, obstetrics, gynecology & reproductive sciences: Awarded the first honorary appointment to the medical staff at St. Lukes Hospital.

Daniel S. Friend, professor, pathology: Elected secretary of the American Society for Cell Biology.

Mikkel Aaland

Bullard

David G. Bullard, assistant clinical professor, medicine & medical psychology: Winner of the 1986 Special Recognition Award of the Society for the Scientific Study of Sex, Western Region. He also was appointed to the board of consulting editors of the new *Journal of Psychology & Human Sexuality*.

Mardi J. Horowitz, professor, psychiatry: Elected president-elect of the Association for Clinical Psychosocial Research.

In Memoriam

Marion Elizabeth Kalkman. A professor emeritus in the School of Nursing, she retired in 1972 after 22 years on the faculty. A nationally renowned expert in psychiatric nursing, Kalkman was instrumental in developing the UCSF graduate program and authored the first text in that field of nursing. After her retirement from UCSF she became educational director at Napa State Hospital.

Appointments

Mikkel Aaland

Balzer

J. Leroy Balzer: Assistant Vice Chancellor, Environmental Health & Safety. He comes to UCSF from BHP-Utah International, Inc., where he served for 12 years as director of environmental quality. A 1971 PhD graduate of UC-Berkeley in Environmental Health Sciences, he was a health and safety technician and industrial hygienist and engineering specialist on the Berkeley campus from 1963-1971. Balzer replaces Reynold F. Brown, who is retiring after 27 years as administrator of Environmental Health & Safety.

Contracts & Grants Awarded

Nina Agabian, pharmaceutical chemistry, S/P, $150,000, John D. & Catherine T. MacArthur Foundation, *Equipment for Research Consortium on Biology of Parasitic Diseases at UCSF;* $20,500, Rockefeller Foundation, *Molecular Cloning & Characterization of Hookworm Elastase as a Target for Protective Vaccines*; $50,000, Rockefeller Foundation, *GND Network, Laurel Heights.*

Robert M. Bigsby, anatomy, S/M, $74,410, NIH National Institute of Child Health, *Hormonal Control of Female Reproductive Tract Growth.*

J. Michael Bishop, Hooper Foundation, S/M, $449,568, NIH National Cancer Institute, *Retroviruses & Cancer Genes.*

Herbert John Blossom, family & community medicine, S/M, $29,700, CA Statewide Health Planning & Development Office, *Fellowship in Family Medicine–1987-88 Valley Medical Center.*

Daniel Benjamin Borson, CVRI, S/M, $80,384, NIH National Heart, Lung & Blood Institute, *Role of Enkephalinase in Regulating Airways.*

Homer A. Boushey, CVRI, S/M, $119,486, CA Air Resources Board, *Air Pollution Studies.*

V. Courtney Broaddus, CVRI, S/M, $64,800, NIH National Heart, Lung & Blood Institute, *Comparative Physiology of the Normal & Inflamed Pleura.*

Stephen C. Lazarus, CVRI, S/M, $94,770, NIH National Institute of Arthritis & Musculoskeletal Disorders, *Non-immunologic Contact Urticaria & Mast Cells.*

Philip R. Lee, Institute for Health Policy Studies, S/M, $27,396, Stanford University, *PACE Report on the Condition of Children's Health in California.*

Jay A. Levy, CRI, S/M, $121,489, UC Systemwide Administration, AIDS Task Force, *CD8+ Cell Control of HIV Infection.*

Shan-Yan Lin, medicine–SFGH, S/M, $25,000, American Heart Association, SF Chapter, *Reflex Control of Sodium Excretion.*

Michael Lovett, pediatrics, S/M, $83,875, NIH National Institute of Child Health, *A Molecular Genetic Analysis of the Agouti Locus of the Mouse.*

Lighten Up!

A new program, combining exercise and proper eating habits, is being offered this fall to help you lose weight. Called "Lighten Up," it is the combined effort of the Department of Nutrition & Dietetics and the Millberry Union PRO Recreation and Fitness Program.

The program will consist of 10 weekly meetings beginning October 7. Each meeting will be led by a nutritionist and an exercise physiologist.

A free informational session will be held in the Millberry Union East Lounge on Wednesday, September 30, at 5:30 p.m. and again on Thursday, October 1, at noon. For further information call nutritionist Claudia Davoli at x62291 or exercise physiologist Karen Britz at x61800.

Center on Deafness Call for Papers

The UCSF Center on Deafness is looking for case summaries to be included in their "Mental Health Assessment of Deaf Clients: Special Conditions" clinical conference to be held in February 1988. Major subjects to be covered are family systems, adolescence, legal and forensic issues, child and adults with minimal language skills and adult onset of deafness. Workshop presenters will receive all expenses plus a $100 honorarium. For further information contact Holly Elliott, UCSF Center on Deafness, Box 1208, or call x64980 or x67600 (TDD). Deadline for submitting case summaries is Tuesday, September 15.

Investigator Research Grants

Applications now are due for Individual Investigator Research Grants through the Committee on Research of the UCSF Academic Senate. Research guidelines and applications are available from the Academic Senate Office, Box 0764, x61308. Deadline for submission is Monday, Sept. 21, for the funding period Nov. 1–June 30.

Fulbright Awards

Competition has opened for Fulbright grants for research and university lecturing abroad. Sponsored by the Council for International Exchange of Scholars, these 1988-89 awards offer opportunities in over 100 countries. Basic eligibility includes U.S. citizenship, PhD or comparable professional qualification, university or college teaching experience, and in some situations proficiency in a foreign language. Application deadlines vary according to desired country. For further information call the Graduate Division, x62310.

Today/Tomorrow

24 Monday

MOBILE MAMMOGRAPHY SCREENING SCHEDULE

Women can have low-cost mammograms—x-rays to screen for breast cancer—from a mobile van that travels to convenient shopping or downtown locations in San Francisco and remains for a week at a time.

Women need the approval of their physicians to have the mammogram. The procedure takes approximately 20 minutes and costs only $40. To make an appointment call 990-0459 or x62193 between 9 a.m. and 3:30 p.m.

The van will be at the following locations for the next three weeks:

Aug. 24-28: Civic Center, on McAllister St. between Larkin & Polk.

Aug. 31-Sept. 4: Marina Green parking lot, near Ft. Mason.

Sept. 8-10: Glide Memorial Church, at Ellis & Taylor Sts.

LABORATORY MEDICINE CORE CURRICULUM: *Transfusion to Treat Coagulation Disorders: Congenital Disorders.* Marion Koerper, Ped. *Acquired Disorders.* George Rodgers, Med. L 535. 2-3:30 p.m.

LABORATORY MEDICINE GRAND ROUNDS: *Breast Cancer at Medical Centers in Israel, the West Bank & the US.* Yoav Horn, Lab. Med. L 535. 4-5 p.m.

25 Tuesday

COMBINED MODALITY BREAST CANCER CONFERENCE. Surg. Clin. Conf. Rm., 6th Fl. A. 8 a.m.

ORAL & MAXILLOFACIAL SURGERY GRAND ROUNDS: Residents' forum followed by M & M meeting. C 701. 8-10 a.m.

SFGH PEDIATRIC GRAND ROUNDS: *Overview of Drowning in Childhood.* Byron Aoki, Ped. *Management of Burns in Pediatrics.* Ronald Barton, Plast. Surg. Carr Aud., SFGH. 8-9:30 a.m.

TRANSFUSION MEDICINE RESEARCH FORUM. L 535. 8:30 a.m.

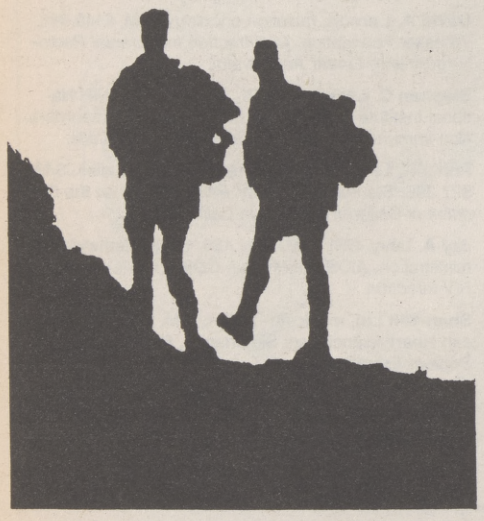
SFGH MEDICINE GRAND ROUNDS: *Trends in STDS.* Gayle Bolan, Med., SFGH. Carr Aud., SFGH. 11:30 a.m.

OBSTETRICS/PEDIATRICS & ANESTHESIOLOGY CONFERENCE: Julian T. Parer, Ob/Gyn; Roderic H. Phibbs, Ped. & CVRI; Sol Shnider, Anes. & Ob/Gyn. M 1486. Noon.

SFGH GI-MEDICINE/SURGERY/RADIOLOGY IMAGING CONFERENCE. Rm. 1X58, SFGH. 4-5 p.m.

TRANSFUSION MEDICINE JOURNAL CLUB. 2nd Fl. Confr. Rm., Irwin Mem. Blood Bank. 4 p.m.

BIOCHEMISTRY & BIOPHYSICS SEMINAR: *The Role of GTP Binding Proteins in Yeast Signal Transduction Pathways.* Kunihiro Matsumoto, DNAX. HSW 301. 4 p.m.



OUTDOORS UNLIMITED SLIDE PRESENTATION: *Walking Across Utah.* Steve Tabor. MU Madrone Rm. 7:30 p.m.*

26 Wednesday

HAND SURGERY CONFERENCE: Journal Club. S 214. 7-8 a.m.

SFGH ORTHOPEDIC SURGERY STAFF CONFERENCE. Rm. 5K8, SFGH. 7:30-9 a.m.

MULTIDISCIPLINARY TUMOR BOARD: M 1296. 7:30 a.m. Call Lourdes Sibayan, coordinator, x61662.

DERMATOLOGY CONFERENCE: *Immunopathology & Cutaneous Lymphoma.* Gary Wood, Derm. Stanford. HSW 301. 8 a.m.

NUCLEAR MEDICINE SEMINAR. L 340. 8:15-9:15 a.m.

PRIMARY CARE LECTURE SERIES: *Psychotherapeutic Drugs & the Elderly.* Ron Finley, Pharm. *Legal Medicine.* Dan Tennenhouse, Med. A 455. 10 a.m.-noon.

MEDICAL GRAND ROUNDS: *Risk Stratification in the Post-Myocardial Infarct Patient.* Nora Goldshlager, Med. Cole Hall. 11 a.m.-noon.

OCCUPATIONAL & ENVIRONMENTAL MEDICINE GRAND ROUNDS: *Challenging Cases in Occupational Skin Diseases.* Robert Adams, Derm., Stanford. Admin. Confr. Rm., Santa Clara Valley Med. Ctr. Noon.

WOMEN & SPIRITUALITY MEETING: Landberg Center, 1378-3rd Ave. Noon-1 p.m. Call 564-3515 for further info.*

BROWN BAG LECTURE SERIES: *Be An Artist At What You Do!* R. Raffaello Dvorak, creativity consultant. HSW 300. Noon. Also telecast live to SFGH Carr Aud. & CED 3rd Flr. Commons Rm. Videotapes available for viewing in HSE 345, SIMA unit, UCSF Library. Call x64394.*

UCSF AL-ANON MEETING: For friends & families of alcoholics. C 517. Noon-1 p.m.*

HEAD & NECK TUMOR CONFERENCE. A 723. 1 p.m.

TRISERVICES CARDIOLOGY CONFERENCE. S 1364. 4:30-5:30 p.m.

SFGH GI-MEDICINE/SURGERY PATIENT CARE CONFERENCE. Rm. 4H2, SFGH. 4:30 p.m.

PATHOLOGY GRAND ROUNDS: *Pediatric Soft Tissue Lesions.* Margot Guis, Path. HSW 508. 5:15-6:15 p.m.

OUTDOORS UNLIMITED SLIDE PRESENTATION: *Paddling & Science in the South China Sea.* Joanne Turner tells of her Earthwatch Expedition studying reptiles & amphibians in China. The Bay Model, 2100 Bridgeway, Sausalito. 7:30 p.m. $3. Call x61469.*

27 Thursday

SFGH NEUROLOGY-NEUROSURGERY CONFERENCE. Rm. 4H2, SFGH. 8-9 a.m.

PEDIATRIC GRAND ROUNDS: *Renal Transplant in Children.* Donald Potter, Ped. S 664. 8:30-9:30 a.m.

OCCUPATIONAL & ENVIRONMENTAL MEDICINE GRAND ROUNDS: *Sub-Group Analyses in Generalizing From Clinical Trials.* Steven Hulley, Epidem., Med. & Hlth. Policy. Carr Aud., SFGH. 8:30-10 a.m.

SFGH TRAUMA CENTER CONFERENCE: *Maxillofacial Trauma.* William Hoffman, Surg., SFGH. Rm. 4H2, SFGH. 9 a.m.

PEDIATRIC TUMOR CONFERENCE. L 34. 11 a.m.-12:15 p.m.

NEUROLOGY GRAND ROUNDS: *AIDS: Alternative Etiologic Hypotheses.* William Estrin, Neuro. & Gallo Ctr. S 664. 11:10 a.m.-12:05 p.m.

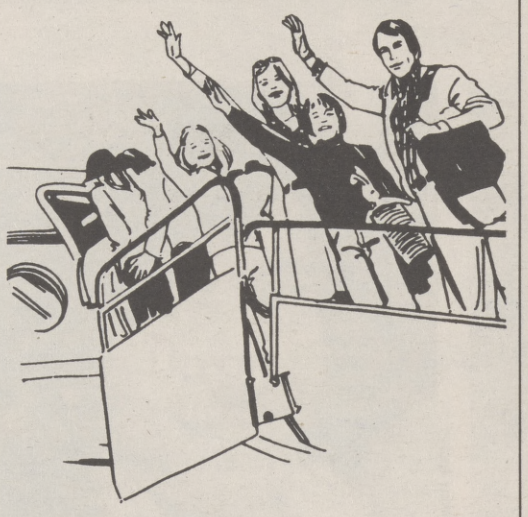
UCSF/MOUNT ZION GERIATRIC GRAND ROUNDS: *Urinary Tract Stones.* Edward J. Collins, Uro. Herbst Hall, Mt. Zion. Noon.

NEURO-ONCOLOGY CONFERENCE. L 34. 12:30-1:30 p.m.

HEMATOLOGY/ONCOLOGY GRAND ROUNDS: *Biogenesis of the Fibrogen Receptor.* Paul Bray, CRI. M 1296. 1:30-2:30 p.m.

CARDIAC CATHETERIZATION CONFERENCE. L 1161. 4-6 p.m.

NEUROSURGERY GRAND ROUNDS. HSW 302. 4-5:30 p.m.



PRIMARY CARE GRAND ROUNDS: *Advice to Patients Who Travel.* Robert Baron, Med. A 455. 4:30 p.m.

ALCOHOLICS ANONYMOUS MEETING: All are invited. LPPI Aud. 5:30 p.m.*

PLASTIC SURGERY LECTURE/DINNER MEETING: *Total Nasal Reconstruction.* Malcolm A. Lesavoy, Plast. & Reconst. Surg., UCLA. Faculty Club, MU. Dinner 6 p.m., lecture 7 p.m. $20. Call x63061.

28 Friday

SFGH MAXILLOFACIAL TRAUMA CONFERENCE. Rm. 4H4, SFGH. 7-7:30 a.m.

PULMONARY PHYSIOLOGY SEMINAR: *Single Breath CO Diffusing Capacity.* Warren M. Gold, Med. & CVRI. L 1361. 8-9:30 a.m.

PATHS OF HEALING & WHOLENESS: *Life's Choreography.* Dee Bellevue. N 517. Noon-1 p.m.*

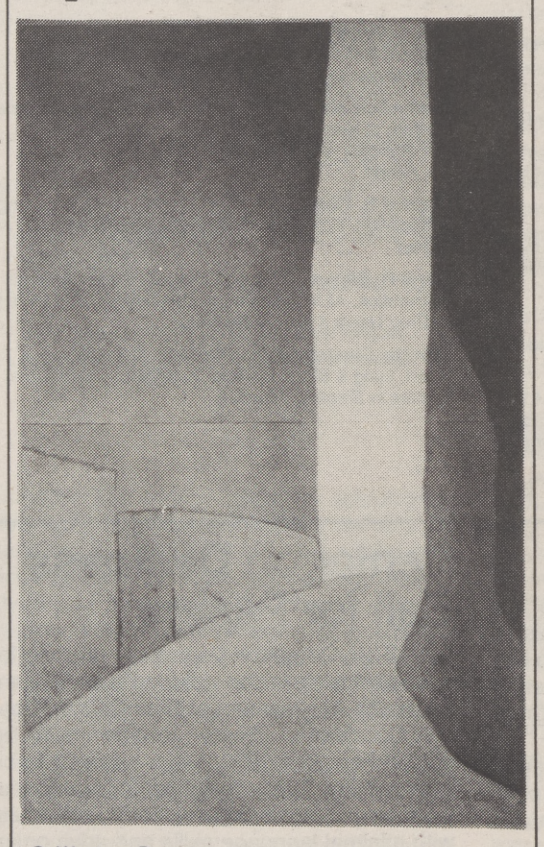
ALCOHOLICS ANONYMOUS MEETING: All are invited. HSE 336. Noon-1 p.m.*

31 Monday

LABORATORY MEDICINE CORE CURRICULUM: *Bone Marrow Transplantation: Laboratory Aspects.* Elizabeth Donegan, Lab. Med. *Transfusion Therapy.* Marek Bozdech, Med. L 535. 2-3:30 p.m.

LABORATORY MEDICINE GRAND ROUNDS: *Microbiology in Private Practice.* Patrick Joseph, Med. L 535. 4-5 p.m.

1 Tuesday



S. Western Passage

NEW ART EXHIBIT

The paintings of Stewart B. Gross, retired pediatrician and former director of Alameda County Health Care Services Agency. Faculty/Alumni House. 8 a.m.-4:30 p.m. Through Nov. 27. Reception for the artist Thurs., Sept. 17, 4:30-7 p.m. *

COMBINED MODALITY BREAST CANCER CONFERENCE. Surg. Clin. Conf. Rm., 6th Fl. A. 8 a.m.

ORAL & MAXILLOFACIAL SURGERY GRAND ROUNDS: *Reconstruction of the TMJ.* William Ware, Oral & Maxillofac. Surg. C 701. 8 a.m.

PARENTS FOR CAMPUS INFANT CARE BAKE SALE. Med. Sci. lobby. 8 a.m.

SFGH PEDIATRIC GRAND ROUNDS. Carr Aud., SFGH. 8:30-10 a.m.

TRANSFUSION MEDICINE RESEARCH FORUM. L 535. 8:30 a.m.

NEW EMPLOYEE ORIENTATION: *UCSF Policy, Procedures & Benefits.* Presented every other Tues. All new employees are urged to attend. S 214. 8:30 a.m.-noon. To register call x61645.

HOSPITALS AUXILIARY ART EXHIBIT: On display for the month of September in the lobby of Moffitt/Long Hospitals are watercolors by Vincent Scurr, black and white photography by Chris Barton and Bob Pizzi and mini-oils by Miyumi Mori. A portion of all proceeds benefits patients at the Medical Center. To purchase or reserve work, visit the Auxiliary Office, M 182, 9 a.m.-4 p.m. or call x64906.*

SFGH MEDICINE GRAND ROUNDS. Carr Aud., SFGH. 11:30 a.m.

OBSTETRICS/PEDIATRICS & ANESTHESIOLOGY CONFERENCE: Julian T. Parer, Ob/Gyn; Roderic H. Phibbs, Ped. & CVRI; Sol Shnider, Anes. & Ob/Gyn. M 1486. Noon.

VOLUNTEER ORIENTATION: To acquaint new & prospective volunteers with opportunities at the Medical Center. C 209. 1-3 p.m. Call x61993.*

SFGH GI-MEDICINE/SURGERY/RADIOLOGY IMAGING CONFERENCE. Rm. 1X58, SFGH. 3:30 p.m.

2 Wednesday

HAND SURGERY CONFERENCE. *Finger Tip Injuries.* James Davis, Plast. Surg. Cafeteria Confr. Rm. 3, SFGH. 7-8 a.m.

SFGH ORTHOPEDIC SURGERY STAFF CONFERENCE. Rm. 5K8, SFGH. 7:30-9 a.m.

MULTIDISCIPLINARY TUMOR BOARD: M 1296. 7:30 a.m. Call Lourdes Sibayan, coordinator, x61662.

DERMATOLOGY GRAND ROUNDS. HSW 301. 8 a.m.

NUCLEAR MEDICINE SEMINAR. L 340. 8:15-9:15 a.m.

PRIMARY CARE LECTURE SERIES: *Insulin Dependent & Non-Dependent Diabetes.* Martha Nolte, Med. A 455. 10 a.m.-noon.

WOMEN & SPIRITUALITY MEETING: Landberg Center, 1378-3rd Ave. Noon-1 p.m. Call 564-3515 for further info.*

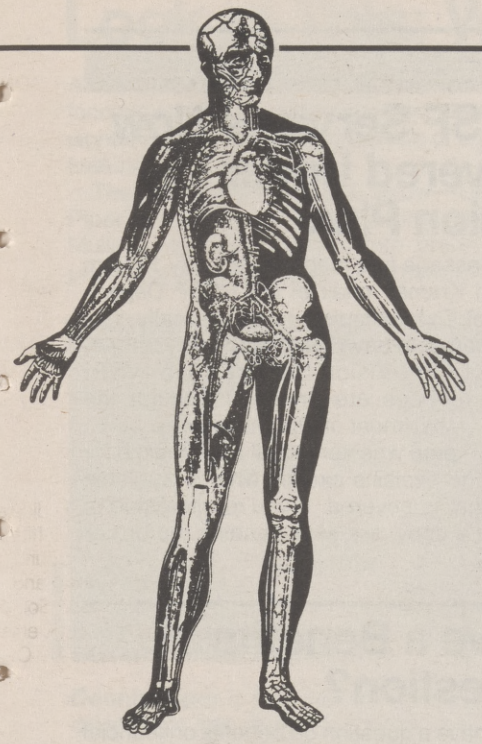
BROWN BAG LECTURE SERIES: *Dental Implants.* Richard A. Smith, Dent. HSW 300. Noon. Also telecast live to SFGH Carr Aud. & CED 3rd Flr. Commons Rm. Videotapes available for viewing in HSE 345, SIMA unit, UCSF Library. Call x64394.*

UCSF AL-ANON MEETING: For friends & families of alcoholics. C 517. Noon.*

HEAD & NECK TUMOR CONFERENCE. A 723. 1-3 p.m.

*Open to the public.

Aug.22-Sept.11,1987



TRISERVICES CARDIOLOGY CONFERENCE. S 1364. 4:30-5:30 p.m.

SFGH GI-MEDICINE/SURGERY PATIENT CARE CONFERENCE. Rm. 4H2, SFGH. 4:30 p.m.

PATHOLOGY GRAND ROUNDS: *Bone Tumors.* Edward House, Path, SFGH. HSW 508. 5:15-6:15 p.m.

A Circle of Sisters. Support group for black women working and studying at UCSF. 1308 3rd Ave. Fri., Sept. 25-Oct. 30. Noon-1 p.m. **Introductory Gathering.** Toland Hall. Wed., Sept. 23. Noon-1 p.m.

Spirituality & Channeling. N 517. Wed., Oct. 14-Nov. 18. 5:30-7 p.m. $90-150 sliding scale. **Introductory Lecture.** Wed., Sept. 30. Noon-1 p.m.

Say What? Communication skills workshop. 622 Spruce St., SF. Mon., Oct. 5-26. 7-8:30 p.m. $75.

RAPE PREVENTION EDUCATION

Call x65222 for further information.

Self-Defense For Children & Adolescents. Child Care Study Ctr., 610 Parnassus. Sat., 10:30 a.m.-2 p.m. Ages 5-7: Sept. 12. Ages 8-10: Oct. 17. Ages 11-14: Nov. 14. $10.

BASICS OF MEDLINE

Seminars on the basic techniques for searching MEDLINE on the National Library of Medicine's MEDLARS system. $50 students & residents, $80 others. Sat., Sept. 12 & 19. Applications at UCSF library reference desk or administrative office, S 257. Call Carol Yates-Imah, Elisabeth Bell, or Jim Mackie at x68253 or message x68293.

MEDLINE SEARCH ON YOUR PC

Interested in learning how to do MEDLINE searching on your personal computer? UCSF faculty are invited to learn how during a two-hour demonstration session on Grateful Med, the National Library of Medicine's user-friendly software. Choose one of the following days: Wednesday, Sept. 2; Friday, Sept. 11; or Monday, Sept. 14, from 3 to 5 p.m. in Room N 735. To reserve a space call Carol Tarlen at x61482.

Benefits/Personnel

"What Happens to My Retirement Benefits if I Leave After Two Years?"

"I have worked for UCSF for the past two years," writes Rosemary Fernandez of Medical Microbiology, *"and am terminating my employment due to personal reasons. I would like to know what happens to my retirement benefits that have accumulated resulting from contributions made under the institution's retirement plan and my own contributions, now that I will be leaving. Can this be cashed and if so, is there any payment or penalty on it? If the funds accumulated are payable, will that amount be tax-liable?"*

If you leave the University prior to age 62 or before you have worked here five years, says Benefits supervisor Mary Kahn, then you are eligible to receive a refund of the contributions you have made to the basic retirement plan (UCRS), plus the interest accumulated on that amount. Form 1635, "Disposition of Retirement," available from your department's benefits rep, is the paperwork to fill out and submit.

Under the same circumstances as above, any University contributions to the plan will not be refunded to you. Instead, they are returned to the general UCRS fund.

Remember, you have not paid taxes on these funds to date. Once they are refunded, the amount is reportable for income tax purposes. Further, if you are younger than 59½, an additional 10% liability will be imposed. One option you may want to consider is to roll the amount over into an IRA account, thus avoiding the penalty for early withdrawal and maintaining the deferred income tax status.

How are the Funds Performing?

For those invested in the additional savings programs, here are the latest unit values and monthly factors (as of July 31):

- *Accumulation Unit Values*

Equity Fund: $58.373 (39.0%)*
Bond Fund: $29.609 (2.1%)*

- *Monthly Factors*

Savings Fund:.007484 (9.36%)**
Money Market Fund:.006223 (7.73%)**
GIC Fund:.007552 (9.45%)**

*Percentages represent total percentage increase over previous 12-month period.

**Percentages represent the most recent returns expressed as an annualized rate. The money market and savings rates change monthly.

Questions, call x61400.

"Are Sunglasses Covered?"

"Does the new vision plan cover prescription sunglasses?" asks a member of the Physical Therapy staff.

The Vision Service Care plan covers one vision examination, one set of corrective lenses, one set of frames and one set of medically necessary contact lenses every 12 months. There is a $10 deductible for the exam and a $10 deductible for the lenses. There are additional costs for certain extras, including photochromatic lenses or tints (sunglasses). The extra fee for tinted lenses varies according to a number of factors, but the minimum extra you would pay is $8. Therefore, your out-of-pocket expense for sunglasses—if these are the only glasses you purchase under the plan during the 12-month period—would be a minimum of $28.

P.S. You can get questions like this answered directly by calling the Vision Service Care information line: 800-852-7600.

UCSF Services Now Covered Under Vision Plan

The message in a memo dated July 13 from Steven Kramer, chair of the UCSF Department of Ophthalmology, was basically this: Arrangements have been made for reimbursement from Vision Service Plan (VSP) when services are provided through the UCSF Department of Ophthalmology.

The memo was sent to all staff eligible for VSP, and explains exactly what is available and what is covered. If you're interested in seeing a copy, ask your benefits rep or call x62142.

Have a Benefits Question?

If you have a question on benefits or financial planning you'd like to have answered, jot it down and submit it to: UCSF Newsbreak/ Benefits, News and Public Information, 532 Parnassus, Room 300. If it seems to be of interest to the masses, we'll print the answer in this column.

Jobs

The Personnel Department, located at 1350 Seventh Avenue, is open to receive applications every weekday from 8 a.m. to 5 p.m. with extended hours on Wednesdays, 8 a.m. to 6:30 p.m. Details of jobs listed below are available in the UCSF Employment Opportunities flyers. Copies are distributed campuswide and also are posted at the Personnel Office and in the main lobby of Moffitt Hospital.

Key: UNION CODES: CX—Clerical and Allied Services
AFSCME EX—Patient Care Technical
SX—Service
CNA NX—Registered Nurses

Administrative/ Professional

Senior Administrative Analyst. Transplant Service. #M-L49364. $2,733-$3,296. Filing Deadline: 9/2/87.

Programmer/Analyst I. LPPI/Research. #V-W49205. $12.17-$14.64/Hr. Filing Deadline: 8/26/87.

Health Care & Allied Services

Clinical Nurse III (NX). ACC/Dermatology Clinic. #H-C57165. $2,711-$3,270. Filing Deadline: 8/26/87.

Clinical Nurse II (Research). Epidemiology & International Health - SFGH, VAMC, UCSF-Moffitt. #M-F53181. $2,588-$2,978. Filing Deadline: 8/26/87.

Clinical Nurse II (NX). Medicine/AIDS/Oncology - SFGH. #M-C54207. $2,588-$2,978. Filing Deadline: 8/26/87.

Senior Nuclear Medicine Technologist. Clinical Laboratories/Laboratory Medicine - SFGH. #M-C50542. $2,312-$2,785. Filing Deadline: 8/26/87.

Hospital Lab Tech I/II (EX). CVRI. #M-L52433. $2,083-$2,504 Or $2,389-$2,880. Filing Deadline: 8/26/87.

Hospital Clin. Lab Assistant II (EX). Clinical Laboratories/Laboratory Medicine - SFGH. #M-C50668. $9.78-$11.68/Hr. Open Until Filled.

Hospital Clin. Lab Assistant II (EX). Clinical Laboratories/Laboratory Medicine - SFGH. #M-C50548. $1,702-$2,032. Filing Deadline: 8/26/87.

Hospital Clin. Lab Assistant II (EX). Clinical Laboratories. #H-C52609/10. $9.78-$11.68/Hr. Filing Deadline: 8/26/87.

Hospital Unit Service Coordinator III (EX). Nursing. $9.15-$10.87/Hr. Open Until Filled. Apply to: Ms. Janice Collins.

Clerical & Allied Services

Administrative Assistant III (CX). Senior Vice Chancellor - Academic Affairs. #V-B55299. $2,010-$2,416. Filing Deadline: 8/26/87.

Clinical Faculty Affairs Assistant III (CX). LPPI/ Academic Affairs. #V-W49377. $2,010-$2,416. Filing Deadline: 8/26/87.

Academic Staff Assistant II (CX). Medical Records. #H-A54330. $1,766-$2,108. Filing Deadline: 8/26/87.

Administrative Assistant II (CX). ACC/Clinic Administration. #H-A57125. $1,766-$2,108. Open Until Filled.

Administrative Assistant II (CX). Anesthesia. #H-A43438. $1,766-$2,108. Open Until Filled.

Administrative Assistant II (CX). Development Office. #V-S50762. $1,766-$2,108. Filing Deadline: 8/26/87.

Administrative Assistant II (CX). #M-C53780. Medicine/Infectious Diseases - SFGH. $1,766-$2,108. Filing Deadline: 8/26/87.

Administrative Assistant II (CX). Medicine/Rosalind Russell Lab - SFGH. #M-C54010. $1,766-$2,108. Open Until Filled.

Administrative Assistant II (CX). Physical Plant. #V-B52367. $1,766-$2,108. Filing Deadline: 8/26/87.

Administrative Assistant II (CX). Restorative Dentistry. #V-B48748. $1,766-$2,108. Open Until Filled.

Administrative Assistant II (CX). Registrar & Admissions. #V-S40977. $1,766-$2,108. Filing Deadline: 8/26/87.

Billing Assistant I/II (CX). Stomatology. #V-B52644. $1,556-$1,843 Or $1,766-$2,108. Filing Deadline: 8/26/87.

Counselor Assistant II (CX). LPPI/AIDS Health Project - Various Off-Campus Sites. #V-W54383/87/90/ 97/98. $10.15-$12.11/Hr. Filing Deadline: 8/26/87.

Data Processing Assistant II (CX). Dentistry. #V-B29775. $1,766-$2,108. Filing Deadline: 8/26/87.

Editorial Assistant II (CX). Medicine/Allergy & Immunology. #M-C54183. $10.15-$12.11/Hr. Filing Deadline: 8/26/87.

Rehabilitation Administrative Assistant II (CX). LPPI. #V-W54279. $1,766-$2,108. Filing Deadline: 8/26/87.

Senior Admitting Worker (CX). Registration. #H-A57333. $9.12-$10.80/Hr. Open Until Filled.

Administrative Assistant I (CX). Medicine/GI Unit - SFGH. #M-C53771. $1,556-$1,843. Open Until Filled.

Dental Clinic Assistant I (CX). Stomatology. #V-BX4323. $1,556-$1,843. Open Until Filled.

Financial Assistant I (CX). Stomatology. #V-B52642. $8.94-$10.59/Hr. Open Until Filled.

Secretary II (CX). Medicine/GI Unit - SFGH. #M-C53772. $1,556-$1,843. Open Until Filled.

Secretary II (CX). Surgery. #M-L40546. $1,556-$1,843. Open Until Filled.

Sciences, Laboratory & Allied Services

Staff Research Associate II. Medicine - VAMC. #M-C23582. $2,070-$2,490. Filing Deadline: 8/26/87.

Staff Research Associate I/II. CVRI. #M-L41205. $1,811-$2,169 Or $2,070-$2,490. Open Until Filled.

Staff Research Associate I. Anatomy. #M-F54060. $1,811-$2,169. Filing Deadline: 8/26/87.

Staff Research Associate I. Biochemistry/Biophysics - VAMC. #M-L4137.$1,811-$2,169. Filing Deadline: 8/26/87.

Staff Research Associate I. CVRI. #M-L52431. $1,811-$2,169. Filing Deadline: 8/26/87.

Staff Research Associate I. CVRI. #M-L51592. $1,811-$2,169. Filing Deadline: 8/26/87.

Staff Research Associate I. Medicine - VAMC. #M-C53704. $1,811-$2,169. Filing Deadline: 8/26/87.

Staff Research Associate I. Medicine/Koret Center - SFGH. #M-C57390. $1,811-$2,169. Filing Deadline: 8/26/87.

Staff Research Associate I. Radiology. #H-P48593. $1,811-$2,169. Filing Deadline: 8/26/87.

Laboratory Assistant III. Lab Medicine - VAMC. #M-L50019. $9.99-$11.90/Hr. Filing Deadline: 8/26/87.

Laboratory Assistant III. Neurosurgery - SFGH. #M-F52151. $1,738-$2,070. Filing Deadline: 8/26/87.

Laboratory Helper. Biochemistry. #M-L46486. $6.69-$7.71/Hr. Open Until Filled.

Parking & Guard Services

Parking Supervisor (SX). Parking Operations. #V-S55172. $1,587-$1,880. Filing Deadline: 9/2/87.

Psychiatric Inpatient Nursing

For more information on the following positions, call LPPI Director of Nursing Marilyn Rajokovich, x67361.

Clinical Nurse III. Behavioral & Neuro Science. $2645-3190/mo.

Inpatient Nursing

For more information on the following positions, call nurse recruiter Lynda Purves, x62252.

Clinical Nurse IV. Neonatology. $3045-3675/mo.

Clinical Nurse IV. Nursing Education & Research. $3045-3675/mo.

Clinical Nurse IV. Critical Care. $3045-3675/mo.

Clinical Nurse IV. Pediatric Oncology. $3045-3675/mo.

Administrative Nurse III. Oncology/Hematology/Bone Marrow Transplant. $3045-3675/mo.

Administrative Nurse I. Pediatrics. $15.94-19.21/hr.

Administrative Nurse I. Pediatric ICU. $15.94-19.21/hr.

Clinical Nurse II. Acute Medicine. $14.51-16.70/hr.

Clinical Nurse II. Neurosurgery/Neurology. $14.51-16.70/hr.

Clinical Nurse II. Pediatric Intensive Care Unit. $14.51-16.70/hr.

Clinical Nurse II. Neonatal ICU/Recovery Nursery. $14.51-16.70/hr.

Clinical Nurse II. Neuro ICU. $14.51-16.70/hr.

Clinical Nurse II. Gyn/Urol/ENT Surgery. $14.51-16.70/hr.

Academic

The Senior Vice Chancellor–Academic Affairs distributes an Academic Employment Opportunities bulletin on a monthly basis to all UCSF departments. You may obtain a complete description of open academic positions from Academic Affairs, Room U 162, x62529. Positions are located on the Parnassus campus unless otherwise noted.

Assistant/Associate Professor in Residence or Assistant/Associate Adjunct Professor. Division of Oral Biology, Stomatology. #D-98 (2 positions, a and b). Filing Deadline: 9/1/87.

Assistant/Associate Professor or Assistant/Associate Professor in Residence. Division of Oral Biology, Stomatology. #D-99. Filing Deadline: 9/1/87.

Assistant Professor (Cell Biologist/Structural Biologist). Pharmacology. #M-752 (2 positions, a and b). Filing Deadline: 9/1/87.

Assistant Research Psychologist/Sociologist. Psychiatry. #M-761. Filing Deadline: 9/15/87.

Assistant Adjunct Professor. Psychiatry. #M-762. Filing Deadline: 9/15/87.

Assistant Adjunct Professor. Psychiatry. #M-763. Filing Deadline: 9/15/87.

Assistant Adjunct Professor. Psychiatry. #M-764. Filing Deadline: 9/15/87.

Associate Research Nurse. Physiological Nursing. #N-114. Open until filled.

Associate Specialist. Drug Studies Unit, Pharmacy. #P-42. Filing Deadline: 9/1/87.

Medsounds Continued

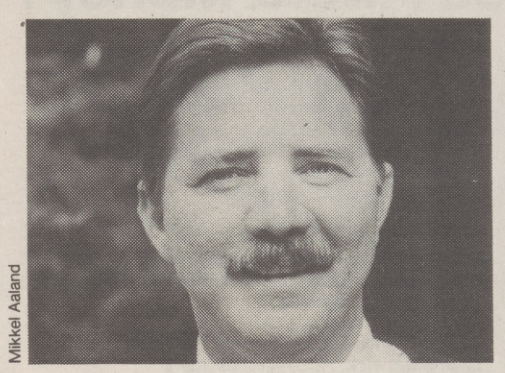
Look at This: We Have a Lot of New People to Introduce!

All of a sudden there are quite a few new faces in our midst, and rather than have you wondering, here's a major portion of a page featuring who's new.

The four people directly below—Dennis Piper, Jackie Jew, Robin Keating and Jim Mullins—all have stepped into brand new positions. Although each is a member of a different Medical Center or campus department, their jobs have a common thread of significance. If you read the brief job descriptions below, you'll notice each is involved in activities directly related to the Medical Center's developing program of marketing, communications and outreach.

Also included among the introductions are new manager of anatomic pathology Joseph Urquidi; new reimbursement manager Valerie Rinkle, new management fellow Ann Cadigan, and new Auxiliary president Penny Marshall. (In the next issue, we'll introduce the whole new slate of Auxiliary officers.)

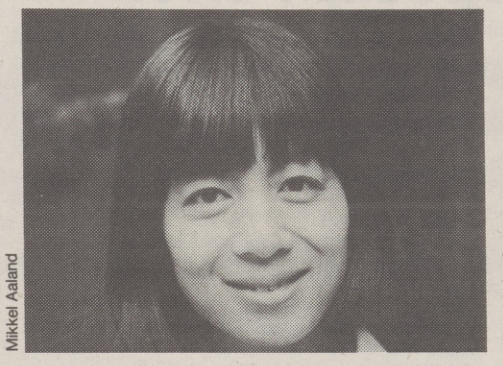
The problem with this paper is that there's not enough room to tell you everything. There is much to say about each of the people below. They have interesting backgrounds that go far beyond these brief sketches. As time goes by, hopefully you'll have the chance to meet and get to know them personally.



Mikkel Aaland

Dennis Piper is the new publications coordinator for the Medical Center. Yes, this means that if you're dreaming up some wonderful piece of communication your department absolutely cannot live without, you now have an expert in the Med Center you can call for advice and help. But don't call too fast—he's currently in the midst of taking inventory of the mountains of Med Center publications already in existence.

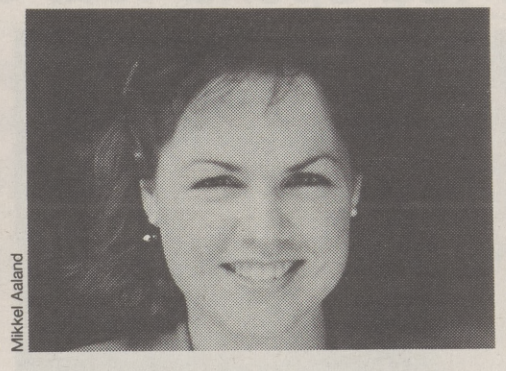
If Dennis looks familiar, maybe it's because he's a former member of the staff at Langley Porter, as associate director of development and external affairs. A veteran journalist and editor, Dennis holds a BA in journalism from the University of Maryland, a certificate in advanced international studies from the International People's College in Denmark, and currently is a candidate for a master's in educational media at SF State.



Mikkel Aaland

Jackie Jew is Planning and Marketing's new marketing research analyst, a job which involves developing and testing marketing strategies for the Med Center. "In other words," she says, "I'll be working on ways of making the Medical Center more attractive to physicians who refer patients and to patients who use our services."

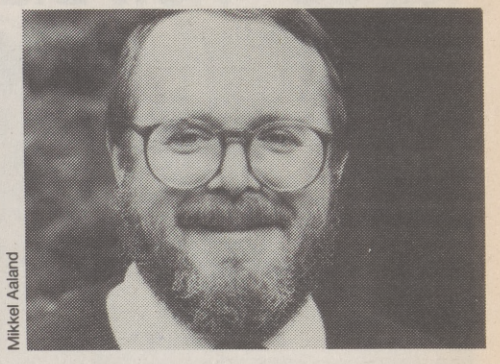
A native of San Francisco, Jackie has a master's and doctorate in social welfare administration from UC-Berkeley. Her work in program evaluation for a number of Bay Area human service organizations led to her interest in marketing, and eventually to her relocation to the Connecticut-based Peabody Group, an organization that does market research for health-related concerns. "It was a great experience, and the seasons were beautiful," she says. "But I'm so glad to be back."



Mikkel Aaland

Robin Keating will be developing a fundraising program for the Medical Center as a part of her new job as associate director of annual giving in the Development Office.

She enhances this new position with a number of interesting elements in her experience. Her educational background includes a BA in psychology and a a master's in counseling psychology, both from Dominican College in San Rafael. For the past seven years she has been the assistant manager of community affairs at Levi Strauss & Company in San Francisco and the Levi Strauss Foundation. Her involvement with the Foundation, an organization charged with *giving* funds, provides some added perspective to her new focus of fund procurement. To state it simply, she says, "You could say I've been on the other side of the fence."



Mikkel Aaland

Jim Mullins is a new senior public information representative in News Services. His involvement with the Medical Center will include the production of two physician newsletters, one for referring physicians, to bring them up to date on the latest research and clinical developments at UCSF; and the other for our own medical staff, to keep them abreast of what's new, what's coming up, and what one another is doing. Jim also will be covering a number of Med Center departments in his news beat.

A graduate of Yale and MPA candidate at the University of New Hampshire, Jim has extensive experience in writing, editing, graphics, publications, photography and filmmaking. He is the former communications and information director for the Institute of Marine Science and Ocean Engineeering at the University of New Hampshire.

Mikkel Aaland

Penny Marshall is the new Auxiliary president for 1987-88. If you don't know Penny through the Auxiliary, then perhaps you know her as a former UCSF employee—she worked in the School of Medicine Dean's Office for 10 years, starting in 1963. After that, she plunged right into the community service pursuits she already had initiated. In addition to the Auxiliary, she holds leadership roles with the SFGH Trauma Foundation, SFGH Board of Chaplaincy, Berkeley's UC Press, and Sunny Hill Residential Treatment Center in Marin. Lately she's added a new pursuit—"Wry Productions," specializing in short (wry) made-for-TV videos. Example: "What Makes Old Men Mad." Future idea: "Wet Dogs." By the way, you're wondering what's up for the Auxiliary in the coming year? Lots, but we'll save it for a future article.

Mikkel Aaland

Joseph Urquidi is the new manager of Anatomic Pathology for the Medical Center. An erstwhile Bay Area resident—as a Stanford alumnus and former administrative officer in the Sheriff's and District Attorney's Offices in San Mateo County—Joseph most recently was the manager of information planning for Santa Fe Braun Engineers in Alhambra, California.

When it comes to management, budget, financial planning, and systems administration, Joseph knows the ins and outs of both public and private industry. He's also something of a sportscar afficionado (while still at Stanford he ran a sportscar clinic catering to starving students) and something of a gourmet cook (which got its start when he received cooking lessons in exchange for fixing one starving student's heap).

Mikkel Aaland

Valerie Rinkle is Planning and Marketing's new reimbursement manager. This is her first time in the Bay Area *and* virtually her first time away from government work. She's here directly from the Department of Health and Human Services in Washington, DC, where she was a policy analyst for the Health Care Financing Administration. Her introduction to Washington came about through a special channel: She was awarded a Presidential Management Internship in 1982, upon receiving her MPA from Indiana University. So far, this new environment is suiting her just fine, she says. On the work front, she's impressed by the emphasis on interpersonal skills and staff recognition. On the home front, she and her husband have bought a house in the suburbs; he'll be commuting to Berkeley's Boldt Hall; she's joined a van pool. They're feeling settled.

Mikkel Aaland

Ann Cadigan has joined the staff for a two-year management fellowship sponsored by the Medical Center. Ann received her BA in general science from the University of Illinois at Champagne; caught the health care bug as a research assistant at Cook County Hospital in Chicago; then pursued and acquired an MPH at Yale in the health administration/epidemiology program. "That's administration with a research bend," she explains.

Following graduation, Ann took a position with the Yale School of Medicine, helping to set up an outpatient faculty practice. The project is almost complete; she's still doing a little consulting over the phone while she's busy immersing herself in her inaugural project here: working on the Annual Report to the Regents. Administration's Ron Lipsy is serving as Ann's preceptor.

Here's the News in a Nutshell

LPPI's Lynda Suciu was the grand prize winner in the drawing sponsored by the new Beartique. She's now the proud owner of an enormous stuffed elephant. Each time anyone spent $10 or more during the opening weeks of the new gift shop in Moffitt Lobby, his or her name went into the hat for the drawing. Other winners: Jody Sanuik, Tina March, Dee White, Dale Houston and Tetna Lao (plus several people from the community). The contest was so much fun, they've decided to keep it going—but now you only have to spend $5 and your name goes into the hat. There will be one drawing a month for a prize donated by a Beartique supplier.

Radiation Oncology's Kathleen Wesner and MRI's Evelyn Proctor were hosts for some interesting visitors the other day—members of UC-Berkeley's Gifted Students Program. The visitors were aged 9 to 14—and they're already taking college courses. (There are participants in the program as young as eight years old). Their visit to the campus and Medical Center was coordinated by Environmental Health and Safety's Patrick Shire. Were these young students able to grasp the various concepts and ideas presented in the departments they visited? Yes indeed, says Patrick. "They asked us questions we couldn't answer."

Hospital Information System's Michael Donahue also played host to some interesting visitors recently. These were representatives from Kawasaki Steel, one of the largest steel companies in Japan. They were here to look at the local area network system being installed in the Medical Center (local area network means inhouse communication via computers). Furthermore, since their company also owns and operates a hospital, they were very interested in our CHARMS system. "It shows our computer services are reaching quite a level of sophistication," says Michael, the Med Center's network administrator. "We're gaining an international reputation." In addition to the various computer operations, the visitors were quite impressed with the view from ACC. The cameras immediately were produced when they saw it.

Med Center Telecommunications' Shirley Smith is the first "Operator of the Month" in a new program sponsored by the department. As part of this honor, supervisor Marty Gustafson is taking Shirley out to lunch with the money newly allocated to departments for such activities. "I was going to do it anyway," says Marty, "but I won't complain about using the employee recognition fund money."

PT's Juanita Erickson recently retired after 30 years as a physical therapist with the department. At the big retirement bash in her honor, colleagues and friends put great effort into posing for a photo for *Medsounds*. Unfortunately, as it turned out, *Medsounds* didn't have film in the camera. *We're really sorry*. But please check out the last issue (July 24) of "The Nursing News." There's a story on physical therapy by Rosanne Rappazini that features Juanita.

Another momentous retirement: **Environmental Services' Hazel Taylor**, after 22 years with the department.

People to congratulate: *Nutrition and Dietetic's Carol Porter, PhD*, winner of the 1987 Ellsworth C. Dougherty Memorial Prize for outstanding graduate research in experimental nutrition; *14 Long's Lynn Forsey and 11 Moffitt's Beverly McGuffin*, respective recipients of silver and bronze pins, awarded by the Sigma Theta Tau Nursing Honor Society for their contributions to the Center for Nursing Scholarship and International Nursing Library.

"The City" is a new discount coupon book offered by the Auxiliary. It costs $5 and contains $1800 worth of coupons for discounts at many local restaurants, the theater, the zoo, museums, etc. The current book is good through the end of October. Pick yours up now from the Auxiliary office at M 182.

UCSF Medsounds

Volume 2, Number 15 August 22-September 11, 1987

Tell Us—How Did You Spend Your Special Performance Award Money?

Mikkel Aaland

Nana Meyer Made Her Brown Eyes Blue

Environmental Services' Rolando Marcello went to Reno and doubled his money playing blackjack and craps.

Clinical Labs' Syd Aquino treated the entire Hematology staff to pizza, cokes and dessert before she went out and spent the rest of it on herself.

Planning and Marketing's Dick Young, known for his terrible luck playing the stocks, was planning to parlay his prize into a fortune through some speculative stock purchases. But he thought better of it, and spent it on new rain gutters for his roof instead.

And here's one you'll like: Clinical pharmacist Dan Dong is putting his prize toward a diamond ring for his girlfriend. Yes, it's a wedding ring. And no, she's not going to find out about it by reading this.

Now, we could offer you a list of what all 72 Med Center Special Performance Award winners are doing with their prize money. But then, the money's not actually the thing, is it? It's the honor of having been selected for superlative job performance, isn't it? So instead, here's a list of the 72 honorees without their spending intentions, should you want to personally congratulate those you know for having earned this recognition (and ask them what they're doing with their prize money while you're at it):

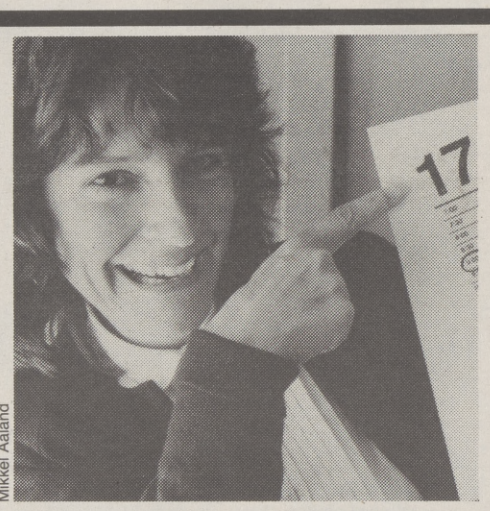
Luriko Ajari, LPPI
Leonard Andruski, Building Management
Sarah Anderson, Nursing, PCRC
Rhae Aoki, LPPI
Syd Aquino, Clinical Labs
Helen Archer-Duste, Nursing, ICN
Elena Arcilla, Medical Records
Cynthia Barton, Nursing, 10 Long
Brian Bluteau, Operating Room
Anne Boekelheide, Nursing, 6 LS
Wesley Boone, Emergency Department
Susan Brown, Nursing, 9 Long
Jean Burton, ACC—Employee Health
Alexis Cadesells, ACC—Orthopaedic Faculty Practice
John Campbell, Nursing, 14 Long
Waiman Chan, Accounts Receivable
Pauline Chin, Nursing
Kim Chu, Nutrition and Dietetics
Marna Cohen, Social Work
Elvie Cole, Hospital Admissions
Marilyn Coward, Clinical Labs
Josefina Dizon, Materiel Services
Daniel Dong, Pharmaceutical Services
Brigid Doyle, Nursing
Ellen Drever, LPPI
James Estes, Quality Assurance Program
Francisco Estrabao, Materiel Services
Beverly Fike, Clinical Labs
Anne Findlay, Nursing
Richard Felder III, Patient Escort Services
Flora Fung, Nursing, 8 Long
Nancy Gordon, ACC—Endocrinology
Robert Guice, Respiratory Care Services
Maura Hopkins, Nursing, ICU
Jack Jansen, Recovery Room—OR
Nubia King-Gray, Nursing, 12 Long
Esterline Lacey, Radiology
Warrene Lofton, Hospital Accounting
Frances Louie, Pharmaceutical Services
Agnes Lui, Patient Escort Services
Sheila Mann, Nursing Services PICU
Mary Mantle, EEG Laboratory
Rolando Marcelo, Environmental Services
Eusebio Masangcay, Accounts Receivable
Doris Merritt, Registration
Nana Meyer, Nursing, CCU
Crispin Montero, Environmental Services
Liliane Natwick, ACC—Orthosurgery
Maile Ota, Operating Room
Luis Palacios, Laundry Linen Services
Marsha Parker, LPPI
Robert Pelger, Clinical Labs
Gary Pelzner, Nursing, 6 LM
Judith Pelzner, HISD—Computer Services
Araceli Ramirez, Pathology
Johnnie Mae Robinson, Nursing, 12 Long
Rosia Reed, Nursing, 7 Long
Dolores Richardson, LPPI
Barbara Robnett, Radiology
Natividad Salinas, Environmental Services
Elizabeth San Luis, ACC—Children's Renal Center
Ma Luz Santos, Pharmaceutical Services
Margaret Schneebeli, Environmental Services
Amy Suen, Nutrition and Dietetics
Julie Thornton, Nursing Services, NICU
Ming Wai, Nutrition and Dietetics
Andre Williams, Nutrition and Dietetics
Peggy Williams, Radiology
Richard Williams, Professional Fee Billing
Catherine Wittenberg, Nursing, Obstetrics
Della Young, Laundry/Linen Services
Richard Young, Planning and Marketing

Grab Your Calendar Find October 17 Write "PICNIC"

Here's why: Saturday, October 17, is the date of the big all-day-long "Family Country Fair" picnic in Golden Gate Park for all Med Center employees and their families.

Granted, that's almost two months off, but here are some things you can be thinking about right now:

- Get your department together, choose your teams for the softball and volleyball tournaments, decide on a team name (or names, if you compete in both sports), and call Laura Barney at x66932 or Inez Wieging at x63921. Then start practicing. Your department could win THE DIRECTOR'S TROPHY (or both trophies, if you win both playoffs.)
- If you have skills, contacts or interest in any of the following areas, also call Laura or Inez: live bands or singing groups, clowns, jugglers, face painting, puppet shows, balloon hat maker, sack and relay races, and/or kite making and flying.
- General volunteers also are needed for a variety of tasks—call Toby Herfindal, x62353, if you can help. Other names and numbers of people on the picnic planning committee: Leon King (chair), x61461; Rufus Battles, x64502; Kathleen Brown, x61715; Richard Felder, x61395; Jim Fink, x62360; Linda Groah, x62207; Eleanor Louie, x62368; Star Seals, x62576; and Jesse Stephens, x61183.



Mikkel Aaland

Call Ellen Call about the Nursing/Chancellor's Cup Run, also October 17.

Calling All Runners: The combined annual Nursing/Chancellor's Cup Run (open to the entire campus) also will take place on October 17, right before the picnic. Registration for the run is now open. Call Ellen Call at x61848 for more information or a registration form. Or pick one up in Nursing Administration, L 171.

Have a Patient Who Wants a Haircut?

Or a shampoo and set, a manicure, or even a permanent? No problem. New Med Center cosmetologist Norma Daugherty will do it.

Norma, who owns the Adam and Eve Salon at 21st and California, has made herself available from 9 a.m. to 5 p.m., Mondays, Tuesdays and Fridays, to provide hair and nail care for our patients.

Dawn Finch

Norma Daugherty can roll her equipment right to the patient's room.

All patient rooms are furnished with little table tents naming the services available and fees (if this isn't happening, be sure to ask your supervisor about it). Then, if someone wants to make an appointment, he or she tells you, and you call the Patient Information Desk at x64264 to set one up.

Then, according to your patient's desire or ability, Norma can come to the room, or the patient can go to her "salon" in the tub room on 8 Long (L 813).

Norma, who says she has been in the cosmetology business "forever," has been providing a similar service at Garden-Sullivan Convalescent Hospital for the past two years. She feels very much at home in a clinical setting. And she loves working with patients. "For most patients, not only is it a welcome diversion," she says, "but getting their hair or nails done can be a nice boost to the morale. For me, it's a morale boost just to be able to help provide that."

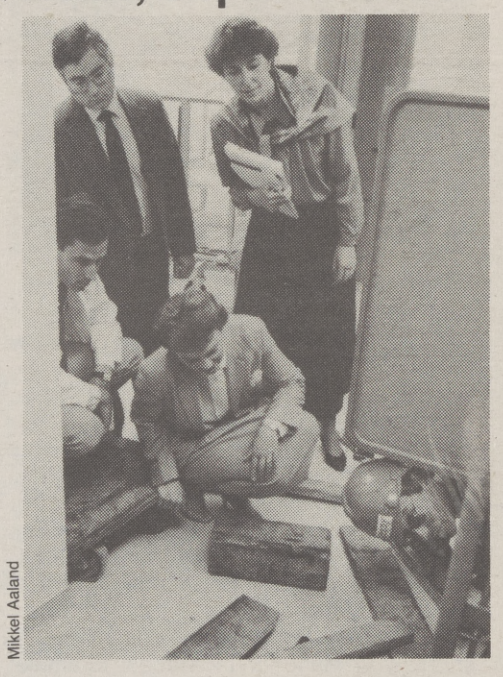
Another Date to Circle: New UCSF Surgery Center Open House, September 22

By now you've probably heard something about the outpatient surgery center—officially called the UCSF Surgery Center—opening up on the plaza level of ACC. Maybe you've even caught a glimpse of the construction taking place over the past several months. Well, here's the big news: The Surgery Center is now finished, it will open the first week in September, and your personal opportunity to inspect the finished product is coming up on Tuesday, September 22. That's the date of the open house for the entire campus staff. (Time still to be announced—check the next issue of *Medsounds*.)

Maybe you'd like to know how, or why, this facility came to be. The new Surgery Center is especially for outpatient surgery—procedures such as cataract surgery, hand surgery, hernia operations, arthroscopies, plastic surgeries and other procedures which don't require an overnight stay in the hospital.

Until now many of these operations have been performed in the main OR, where they are scheduled alongside more serious surgery. The thing is, most of the outpatient surgery patients are basically well; they don't need to be in this acute environment. What they need is to be able to conveniently come in for their surgery, comfortably pass the time pre- and post-surgery, and be with their families immediately before and after the procedure. None of this has been able to happen—at least to the desired degree—as long as outpatient surgery was conducted in the OR. What was needed was a separate facility designed especially for this particular group of patients.

That's exactly what we have in the new Center. It consolidates all of our outpatient surgery services, including those cases previously handled in both the OR and the Ambulatory Surgery Clinic in ACC. It's virtually self-contained—four operating rooms, two procedure rooms, two large areas for first and second stages of recovery, a big comfortable waiting room, private dressing areas and all the requisites for a terrific outpatient surgery program.



Mikkel Aaland

Is this poor workman (pictured above) stuck? Actually, no, he's installing the autoclave (sterilizer) in the new Surgery Center. His audience includes four key figures in the new program: (clockwise from center) OR head nurse Linda Groah, anesthesiologist Neal Cohen, Surgery Center medical director Martin Bogetz, and head nurse Betty Pingree. Other people we could mention: Administration's Tony Wagner, architect Suheyl Atil, Pew Fellow Phil Yamahiro, Kirby Maples, Doug Shaw, Tim Mahaney...

In the next issue of *Medsounds*, we'll provide more information on the program and the people involved. Meanwhile, plan to attend the open house. And plan to be impressed!

Stop By Our Exhibit at the SF Fair

Or better yet, volunteer to staff the exhibit. The dates of the Fair are Thursday through Sunday, August 27–30, and Planning and Marketing Director Patty Perry is looking for at least 32 volunteers to take two-hour shifts. The purpose of the exhibit is to acquaint the community with our services. Your part as a volunteer would be to pass out souvenirs and answer basic questions—no special expertise required.

Can you help? Those who do will get a free pass to the Fair, which takes place at the Civic Auditorium and Brooks Hall, and the opportunity to enjoy all the other interesting activities. If you've been to the Fair in prior years, then you already know they have some pretty unique attractions—parking contests, fog calling, Design-a-Safe-Sex Button competition and other only-in-San Francisco-type activities. Call Eva Lee at x64644 if you're interested.
